DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6 recites the limitation "the supporting edge" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-6 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Trovinger (6,550,756) in view of Ferag EP (399 317).

Trovinger discloses a system for handling folded sheet material comprising a rotatable clamping device (Figs. 2a-2e; via 200) including a linearly displaceable clamping component (207); and a collecting device (213) shaped substantially as a saddle. Trovinger does not disclose that the rotatable clamping device is configured to simultaneously press against opposing sides of the collecting device. However, Ferag discloses a similar system for handling

Art Unit: 3721

folded sheet material comprising rotatable clamping device (Fig. 17; via 28) configured to simultaneously press against opposing sides of the collecting device (Fig. 22).

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified Trovinger's system for handling folded sheet material by having the rotatable clamping device is configured to simultaneously press against opposing sides of the collecting device, as suggested by Ferage, in order to confirm receiving of folded sheets material to the collecting device and avoid any jam on the apparatus.

Regarding claim 2: Trovinger discloses that the rotatable clamping device includes a fixed clamping component (Fig. 2a; via 205).

Regarding claim 4: Trovinger discloses that the rotatable clamping device rotates about a first axis (Fig. 2a; via A) parallel to a supporting edge of the collecting device (Fig. 2a).

Regarding claim 5: Trovinger discloses that the displaceable clamping component is rotatable about a second axis (Fig. 2a; via 207) parallel to the supporting edge (Fig. 2a).

Regarding claim 6: Trovinger discloses that the collecting device is pivotable to move "the supporting edge" of the collecting device relative to the rotatable clamping device (Figs. 1d and 2d; via 113 and 213).

Response to Arguments

Applicant's arguments with respect to claims 1-6 and 14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 12/24/2004 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 3721

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
